# USING THE MANUALS

## Navigating through the documents

Click on a bookmark to navigate quickly in the document.

If you click on an inter-document link in one of the manual, your current manual will be closed and the desired one opened.

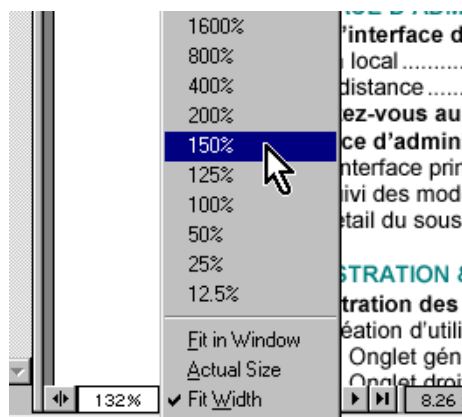

To go back to the previous manual use the **Previous view** button (cousin of the Internet browsers **Back** button).

Use this button to go back quickly to a previous page as well.

## Page visibility

You can zoom in the document.  
Use the **zoom** tool in the menu.

## Printing the manual

You can print the manuals when reading them with **Acrobat Reader®**.

if you use the menu **File | Print** you will be able to precise which page(s) you want (for example, to print only the user's guide of a manual).
